# Syllabus

**Fall Semester 2026**

| **Course Title** | Computer Science 2 | **Course Code** | MC1202 | **Credit** | 2 | **Classroom** | 5701 |
|---|---|---|---|---|---|---|---|
| | | **Type** | Lecture | **Hours** | 2 | | |

| **Teacher** | **Name** | **Office** | **Office hour** | **Contact** | **E-mail** |
|---|---|---|---|---|---|
| | Sumin Han | 5707 | Mon, Thu 2–3:30PM | 051-606-2353 | suminhan@ksa.hs.kr |

## 1. Course Descriptions

- To learn introductory-level Python syntax/semantics
- To practice building small-sized programs in Python language
- To solve elementary algorithmic problems with Python programming

## 2. Core Target Competencies

| **Subject Core Competencies** | | | |
|---|---|---|---|
| Fundamental Programming and Problem-Solving Skills | Logical Thinking and Analytical Skills | Communication and Collaboration Skills | Ethical Use of AI and Responsible Attitude |

- Demonstrates understanding of basic Python syntax and applies it to analyze and solve problems logically.
- Analyzes given problems using structured and algorithmic thinking to identify effective solutions.
- Clearly explains concepts to others and actively listens to peer presentations with respect and attention.
- Demonstrates ethical behavior and responsibility in using AI technologies, completing assignments, and participating in class activities.

## 3. Textbooks and References

A. Textbook: None (slides and handouts)

B. References

- ”The Practice of Computing using Python”, W. Punch and R. Richard

★ There is no main textbook. Main materials can be downloaded from the Google Classroom.

## 4. Class Method

A. Google Classroom code : ptkbrnqh
`https://classroom.google.com/c/ODcxNjQ0OTcyMTMw`

B. Youtube link : `https://www.youtube.com/channel/UCNd_bRqiw0uMliAmhPqX9JA`

C. `https://www.codetree.ai/`

## 5. Evaluation

A. Evaluation Criteria

| In class Problems & Quiz | Midterm Exam. | Final Exam. | Attendance and Attitudes | Sum |
|---|---|---|---|---|
| 30 | 30 | 30 | 10 | 100 |

B. Evaluation Method

1. Absolute evaluation
2. In-class problems for each class
3. Midterm exam: written test (2 hrs)
4. Final exam: written test (2 hrs)

## 6. Criteria for Awarding Credits

- **Pass:** In the case of receiving a score of **70 or more out of 100** according to the criteria of the evaluation method.
- **Academic Excellence Award:** Students with excellent academic achievement are recommended for the Academic Excellence Award and the Principal's Award, and are recorded according to core competencies in the Subject Details. However, students with poor academic attitude or poor attendance are excluded.
- **Attendance:** At least **three-quarters** of the total class hours is required to earn credit.
- **Pass/Fail courses:** If the instructor determines that a specific evaluation element is insufficient and requires a separate evaluation, a separate evaluation may be conducted.
- **Excused absences:** For official duties or medical reasons, the make-up score for a missed exam shall be calculated as follows: the percentile score corresponding to the student's total score in other assessments of the same course shall be applied to the missed exam, multiplied by a weighting factor (**100%** for official absences, **80%** for medical absences). If there are no available reference scores, a re-assessment shall be conducted.

**※ Refer to the "Academic Performance Management Regulations" for the percentage of credit points applied.**

## 7. Weekly Plans

(Class meets Tuesdays. Dates below follow the Tue. column of the 2026-2 school calendar.)

| Weeks | Date | Topic and Contents | Problems |
|---|---|---|---|
| Week 1 | 8/18 | Course Overview / Pretest | |
| Week 2 | 8/25 | Basic Elements : variables, expressions, basic I/O<br>Functions | Week 2: Variables & Expressions<br>Week 3: Functions |
| Week 3 | 9/1 | Conditionals : Boolean expressions, if-else<br>Boolean Functions | Week 4: Conditionals (if-else)<br>Week 5: Boolean Functions |
| Week 4 | 9/8 | Loops #1 : for/range, max/min pattern | Week 6: for Loops #1 |
| Week 5 | 9/15 | Lists | Week 7: Lists |
| Week 6 | 9/22 | Loops #2 : counter pattern, quantifiers pattern | Week 8: for Loops #2<br>Week 9: for Loops #3 |
| Week 7 | 9/29 | Wrap up | |
| Week 8 | 10/6 | Review (Midterm Prep) | |
| Week 9 | 10/12~10/16 | **Midterm Exam.** | |
| Week 10 | 10/20 | While | Week 10: while Loops |
| Week 11 | 10/27 | List 2 – operator and methods | Week 11: List 2 |
| Week 12 | 11/3 | String – operator and methods | Week 12: String |
| Week 13 | 11/10 | Break and continue | |
| Week 14 | 11/17 | Multi-Dimensional List | Week 14: Multi-Dimensional List |
| Week 15 | 11/24 | Class and object | Week 15: Class |
| Week 16 | 12/1 | Wrap up | |
| Week 17 | 12/7~12/11 | **Final Exam.** | |

※ The above plans may change according to the academic schedule.
